53 UNDET CL BY 010521

- c. Recommended approval of the recommendation for involuntary retirement, on the date shown below, for the following participant:

25X1A

- 9 December 1972

3. The next case considered by the Board was the continuation of the request for disability retirement from [REDACTED] 25X1A which was discussed at length at the last meeting of the Board. Mr. [REDACTED] and immediate supervisor appeared before the Board at this meeting. [REDACTED] the supervisor, stated that as far as he knew there was no office in the Office of Communications which was not required to work in an air conditioned office. [REDACTED] stated that [REDACTED] is capable of doing a good job when he is on duty, but he is not a dependable worker. The Chairman advised [REDACTED] that the Board of Medical Examiners had recommended against his retirement and that based on the information available the Board tended to agree. [REDACTED] stated that in all cases the pain came about either while working in air conditioning or shortly upon departure from working in these circumstances. He stated that he would prefer to continue to work if this was possible, perhaps in a different job. When questioned as to whether he had ever sought treatment when these attacks occurred, he stated only through the use of pain pills. He is not currently undergoing any treatment for this condition. After [REDACTED] departure 25X1A and further deliberation the Board determined that a final decision on this application should be deferred in order to allow time for him to seek the treatment which the Office of Medical Services has recommended. The Board recommended that the Office of Medical Services identify a physician in the [REDACTED] area who can be briefed on this case and who will be available to examine and prescribe treatment for [REDACTED] when 25X1A his condition again becomes serious enough for him to leave work. The Board further recommended that, following a period of time adequate to determine whether treatment can control [REDACTED] problems, the 25X1A Board of Medical Examiners re-evaluate this case.

4. The next case was the Fifteenth Anniversary Review of [REDACTED] 25X1A who will complete 15 years of Agency service on 17 February 1973. [REDACTED] has completed 36 months and nine 25X1A days of verified overseas service. The Director of Logistics recommended that he be removed from CIARDS until such time as he may complete the additional qualifying service needed. The Board recommended that [REDACTED] be removed from CIARDS based on his not having completed the required qualifying service.
